Suitable for use in organic food and fiber production.

PRODUCT INFORMATION

Organic BioLink Cal Plus is a liquid plant food containing calcium essential for membrane permeability and for promoting root and leaf development and overall plant vigor.

Organic BioLink Cal Plus is completely soluble for improved nutrient availability and uptake by plant roots and leaves, and to provide a fast method of boosting plants under calcium deficiency stress.

Organic BioLink Cal Plus is *not* compatible with phosphate and sulfate fertilizers.

Organic BioLink Cal Plus can also be used to leach sodium from soils and correct salinic irrigation water.

DIRECTIONS FOR USE

SHAKE WELL BEFORE USING.

For correction of calcium deficiencies in all plants and grass: Use 2-4 teaspoons (2 oz) per gallon of water **OR** 1-2 quarts per acre. Apply to plant foliage as needed throughout the growing season.

For treatment of irrigation water: Use 6 oz per 1000 square feet (2 gallon per acre) applied in irrigation water

For correction of high sodium soil conditions: Dilute in water and apply 3 to 6 oz per 1000 square feet **OR** 1 to 2 gallons per acre. Saturate ground. Repeat application at 7-14 day intervals at a rate of 1 ounce per 1000 square feet **OR** 1 quart per acre.

Use best management and use practices when applying Cal Plus. Use additional fertilizers as needed based on soil and tissue testing.

CAUTION: KEEP OUT OF REACH OF CHILDREN. May be irritating to eyes. Avoid contact with eyes.

For CA, OR, and WA, information regarding the content and levels of metals in this product is available on the Internet at <http://www.aapfco.org/metals.htm> or for other States call (760) 599-8855.
