

Principal Functioning Agents:

Citric Acid.....50.00%

Inert Ingredients:

Water.....50.00%

Total **100.00%**

GENERAL INFORMATION

BioLink Acidifier is an organic acidifying agent specially designed for lowering the pH of irrigation water. **BioLink Acidifier** contains high concentrations of citric acid.

The application of **BioLink Acidifier** to irrigation water complexes minerals in both the water and the soil. The optimum pH in irrigation water is between 5.3-6.0, and citric acid is ideal as an acidifier for reducing the pH. When **BioLink Acidifier** is applied to water and soil, it has a pronounced effect on dissolved salts, which can cause damage.

BioLink Acidifier can be applied to all crops including fruit trees, vines, tree nuts, fruits and vegetables, field and row crops, ornamental trees, shrubs and flowers, containerized plants, and turf.

DIRECTIONS FOR USE

For Irrigation Water: Use **BioLink Acidifier** to lower the pH of irrigation water, when the pH of the water is above the acceptable pH range 5.2-6.8. The suggested use rate is 4 to 15 fluid ounces per 1000 gallons of water. Higher or lower rates may be used depending on the test results of the irrigation water.

For use in Agriculture, Nurseries and Greenhouses: Use **BioLink Acidifier** to reduce spray mix pH level. Application rates depend on water pH and buffering capacity; therefore, use a pH meter to determine proper level of **BioLink Acidifier** in the tank mix. Typical use rates are between 1 to 2 ounces per 100 gallons of water. **BioLink Acidifier** can be used with all conventional application equipment.

KEEP OUT OF REACH OF CHILDREN

Precautionary Statement

DANGER. Corrosive. Liquid may cause irreversible eye damage. Do not get in eyes or on clothing. Wear protective eyewear (goggles or face shield). Wear a long-sleeved shirt, long pants, gloves and shoes and socks when using this product. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

Storage and Disposal: Store out of direct sunlight and at temperatures above freezing (0°C). Rinse and offer empty containers for recycling or reconditioning, or dispose of in a sanitary landfill.

NOTICE OF WARRANTY - Westbridge warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with the directions under normal conditions of use. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials or the manner of use or application, all of which are beyond the control of Westbridge. In no case shall Westbridge be liable for consequential, special or indirect damages resulting from the use or handling of this product. Westbridge makes no warranties of merchantability or fitness for a particular purpose nor any other express or implied warranty except as stated above.
