## PRODUCT INFORMATION

**Organic BioLink Soil Food-Web Activator** is a highly concentrated growth medium designed to enhance microbial growth and activity in soils.

**Organic BioLink Soil Food-Web Activator** stimulates the development of an aggressive microbial community.

**Organic BioLink Soil Food-Web Activator** can be used with microbial inoculants.

## DIRECTIONS FOR USE

### SHAKE VIGOROUSLY BEFORE USING.

**Organic BioLink Soil Food-Web Activator** can be applied to all crops including fruit trees, vines, tree nuts, fruits and vegetables, field and row crops, ornamental trees, shrubs and flowers, containerized plants, and turf.

**Soil Drench Application:** 1 to 2 gallons per acre; Apply as a soil drench. Apply every 21 days or as desired throughout the growing season.

**Turf:** Use 4 to 8 ounce per 1,000 square feet. Spray plant foliage to the point of run-off, the product can also be applied as a soil drench. Apply every 21 days or as desired throughout the growing season.

**Use with Microbial Inoculants:** Organic BioLink Soil Food-Web Activator can be used with microbial inoculants. Care should be taken not to mix concentrated Organic BioLink Soil Food-Web Activator directly into the microbial inoculants. Always predilute the Organic BioLink Soil Food-Web Activator in water at a minimum rate of 10 gallons of water per one gallon of Organic BioLink Soil Food-Web Activator prior to adding to the microbial inoculants. If the inoculant has to be activated, mix Organic BioLink Soil Food-Web Activator into the inoculant at the end of the activation period. If the inoculant can be used directly, mix the diluted inoculant into the diluted Organic BioLink Soil Food-Web Activator.

**WARNING:** Perform a phytotoxicity test on a small plot before large-scale application. To lower the risk of phytotoxicity, applications should be made early morning or late evening.
