PRODUCT INFORMATION

SUNBurst® PK Spray is a liquid phosphorus and potassium spray applied to plant foliage as part of a complete crop management program. Specially prepared garlic juice is added to improve nutrient uptake and enhance efficacy, making SUNBurst PK Spray more effective than standard foliar PK products.

DIRECTIONS FOR USE

SHAKE WELL BEFORE USING.

All Crops: Apply SUNBurst® PK Spray at a rate of 1 quart per acre. Repeat application every 7 to 14 days or as needed throughout the growing season.

Nursery: Use 1 ounce per gallon of water. Apply as a soil drench or spray plant foliage to the point of run-off. Repeat as needed.

APPLICATION GUIDELINES

pH: Buffer the tank-mix to a pH of 6.0 maximum prior to adding SUNBurst® PK Spray to the tank.

Surfactants: Use high-quality surfactant that promotes absorption.

SUNBurst® PK Spray is non-phytotoxic when used as directed. Always test a small plot before large-scale application.

Compatibility: SUNBurst® PK Spray is compatible with most insecticides and pesticides. However before use, it is recommended that a standard jar test be conducted with any untried tank-mixes.

Always use best management and use practices when applying SUNBurst® PK Spray alone or in combination with any other products.

PRODUCT STORAGE & DISPOSAL

STORAGE: Store in a clean, dry place above freezing and below 110°F (43°C). Do not store in direct sunlight. Keep container tightly closed. Do not store diluted product.

DISPOSAL: Puncture empty container. Dispose of empty container and excess tank-mix spray according to Local, State and Federal regulations only.
