

TRIGGRR[®] DIGESTER

SPECIFICATION SHEET

PRODUCT DESCRIPTION: TRIGGRR[®] DIGESTER is a highly concentrated growth medium designed to enhance microbial activity. TRIGGRR[®] DIGESTER accelerates decomposition of compost and crop residues via two mechanisms. One, by enzymatically breaking the chemical bonds in the plant residue thus increasing the decomposability of the residue; and two, by increasing the activity of the soil microflora present.

TRIGGRR[®] DIGESTER is compatible with most common microbial inoculants.

ACTIVE INGREDIENTS: 100% microbial growth medium

PRODUCT SPECIFICATIONS:

Form: Brown liquid with pleasant smelling odor

Boiling Point: 100°C

Specific Gravity[†]: 1.02 ± 0.01 or 8.51 ± 0.08 lbs./gal. (U.S.)

Solubility in Water: Approx. 95%

pH[†]: Approx. 4.0 ± 0.3

HPLC[†]: Passed proprietary HPLC analysis

LIMITATIONS AND HANDLING: Always shake well before use. Some settling may occur over time.

PACKAGING: 55 gallon drum (approximately 564.3 Lbs. net weight.)

[†] Parameters used in quality control.
